

Do I have to work at a bar to be considered?

Our Prep team is open to any and all! However, a role in the spirits industry is heavily encouraged. We are here to nurture the development of everyone in the business from their start and into their future. A person with a background in the spirits industry will benefit greatly from their experience on the SACC Prep Team no matter what role they land in!

Will I have free time?

While you will have a strict schedule, we are proud of our city and will give you ample opportunities to visit. You will stay in the heart of downtown near some of the best food and drink offerings which we hope you'll be as excited to visit as they are to have you! You may think free-time means time away, but you'd be amazed at how hard it gets to stay away from the crew! We understand work happens, we ask that you put the major stuff aside for the week, but you will have time throughout the day to acknowledge any pressing work matters.

Does the program have a sponsor?

Our Prep Team always has a major brand sponsor, this allows us to provide the best possible experience to our team while maintaining our goal of donating the most we can to our charities.
